I don't know how much you would actually care about this email. Probably not at all, but as an onlooker of this case it is very worrisome. Hoosiers have seemingly lost faith in our Judicial system and our Law Enforcement because of the way this case is playing out. It only makes sense that this trial is streamed so that the citizens of this state can possibly gain some trust for our LE and our Judicial system. You need to show the citizens of Indiana that we all still have our rights and that LE and the Judicial system are true to our laws and rights. Even people in other countries are commenting on how they believe this case is run. It is the job that you were elected to do to make sure that Indiana residents that are brought in front you receive a fair, unbiased and constitutional process of law. So if you could please consider that your fellow Hoosiers NEED to be able to watch how the Justice system will make sure that the (possibly) biggest, most high profile case in Indiana history isn't some case full of corruption and unconstitutional rulings. It is you that will get the blame for allowing an innocent man to be found guilty or a guilty man walking because his constitutional rights being violated. Make everyone honest. Keep the story straight. Everyone will come out of that courtroom with false or exaggerated information. SHOW the world that you ARE the right person for this job and that you care for the rights of everyone of your fellow Hoosiers. Put some faith back into our state to show the people around the world that Indiana isn't just filled with a bunch of corrupt leaders. I know that I am just some nobody and you probably won't even read this. People around the world are watching this case. The public has the right to SEE this case to the end. Streaming this trial will prevent thousands of people coming to Delphi and there will be thousands. People all over the world wanting to come and watch what happens in this case. Please consider what I have said.

Thank you
